I am just an online person in your eyes.Even though we met offline. I guess I don't deserve anything real, but artificial and virtual. We can't even have a real face-to-face conversation. Even when we are online, you are in incognito mode, saying that you are someone else to me. You cannot even honest about who you are when you talk to me. I don't use fake account or phone numbers to talk to you. is the same way when you write. You think it's fun. I think it's not and very insincere.I just don't do that. I treat you like you are you. We met offline, in person. I don't like pretending like we don't know about each others when we talk. I admire and care for the person I know offline, not online. (You)I am tired with the internet. Frustrations have caused my tears to roll down on my face countless of time.Nobody cares. about how I feel. Not even you.I am real. I have proven to you through actions.And I miss you, like forever. And I care about you, like ever.by The Gardener in Fairy Tales January 8, 2022Get the Online mug.Get the Online mug.An onliner is someone who plays CS online and does things which are normally impossible to do on LAN. For example an onliner may HS you while on a ladder or while in mid air. These acts are usually met with aggression from players who recieve such ridiculous HS's and thus the term onliner was born."Get fuck you stupid onliner, diol" "Yeah id like to see that online you stupid random"by Mogga December 15, 2005Get the onliner mug.The fact of maintaining a constant online presence, in order to be able to instantly react to any new internet developments, no matter how insignificant. Onlineness may lead to acute loneliness and pathological syndromes such as extralineaphobia.Onliners often have a very limited and/or virtual social life, despite new technological developments such as smartphones enabling them to be on the internet at all times. Side effects to social onlineness include annoying behaviours such as googling-every-word-in-a-real-life-conversation to more dangerous ones like uploading-pictures-of-that-car-wreck-while-driving.- Matt's become such an extreme onliner, it's impossible to have a chat with him without at some point having to react to one of his virtual friends' tweet. I think I'll stop seeing him altogether.- Yeah, or you could offer him to have drinks on a video call. That'd make him feel silly enough he'd stop.- You dream. I bet he'd be up for it.- Onlineness is a bitch.by Jacobus De Gnapet January 9, 2013Get the onlineness mug.Get the onliner mug.Get the online mug.Define a WordTwitterFacebookHelpSubscribe Whether you need to double-check the meaning of a word you think you know or you've run into new vocabulary, an online dictionary can be a quick way of getting the linguistic information you need. But be sure to choose the best dictionaries on the internet for reliable information.Merriam-WebsterWith a pedigree that dates back to Noah Webster, the father of American English, the Merriam-Webster dictionary has adapted well to the online environment. It's won Webby awards and gained a viral following on Twitter thanks to a prescient ability to capture the moment with relevant definitions. Beyond that, the Merriam-Webster website (merriam-webster.com) also includes a thesaurus and dictionaries covering specific topics, like law and medicine, as well as a children's dictionary and other important resources.Oxford English DictionaryThe Oxford English Dictionary (found at oed.com) is arguably the world's foremost scholarly authority on the English language. Though focused on British English, the Oxford English Dictionary is an important record of the language's past and present. Previous print editions of the OED have come in multiple huge volumes, but its recent editions have been published online in full, providing a massive database of English words ranging from the obscure to the everyday.Dictionary.comA straightforward, easy-to-remember address and great design makes Dictionary.com a great resource, particularly for digital natives. The Dictionary.com site includes a simple thesaurus (accessible from the main page or at Thesaurus.com) with a clever tabbed design that makes it super simple to find the exact word you're looking for. Dictionary.com has newsletters, quizzes and a range of specialized dictionaries that are particularly relevant for the digital world, covering everything from acronyms to emojis.Google SearchIn a pinch, you can always use Google as your dictionary. Searching specific words with "define" or "definition" included can result in a definition card at the top of your search results page. For example, if you search "barnyard definition," you'll get a result that gives a brief definition of the word, an option to translate it into another language and a graph of its use over time. This can be handy for quick reference.Urban DictionaryUrban Dictionary, found at urbandictionary.com, is a user-generated definition database, but it operates in a context where the lack of high-brow gatekeeping is a good thing. If you're ever confused by an internet acronym, like HMU (hit me up) or NPC (non-player character), Urban Dictionary can help you get to the bottom of it. Up-and-coming or highly regionalized slang is also a specialty of Urban Dictionary. Though most entries have multiple definitions, users can vote on which ones are most relevant or correct, giving a better impression of how the word is actually used in practice. MORE FROM QUESTIONSANSWERED.NET It doesn't exist. Whoever sent you here is lying, there is absolutely no app called ifunny. All the other definitions are talking about an urban legend, obviously. Ifunny is not real.joe: bro the ifunny features today were shit. mama: you know what happens when you speak of the cursed app in public. prepare to get terminated.by jay010 September 29, 2020Get the iFunny mug.iFunny- An app where users can post pictures, rage comics, gifs and videos in hopes to get selected by the iFunny team to have their work put in a collection of 40 pics a day called the featured section which is viewed by tens of thousands people a day.It has also gotten very much hate because many pictures featured are stolen from reddit or other sites and/or the featured pictures are usually only pictures from a selection of users who suck up to a member of the iFunny team(chef) on twitter.It has also been losing popularity ever since they made it so you can subscribe to users making it hard for new and upcoming users to get featured."Hey, have you been on iFunny lately?" "Nah bro, the app's just been going down hill from the start."by Cookies_ and bananas233 December 23, 2013Get the iFunny mug.An app available on the App Store and Google Play. Originally intended for comedic use, it quickly devolved into a miasma of mixed internet energies. For a long time, only popular users would be "featured" in a set of 20 images that come out 3 or 4 times a day. However, the app developers have introduced #FirstFeat Fridays and #SmolBoi Saturdays. While a look at the features makes the app seem lackluster and full of unfunny, stolen memes from various other sites, these memes are chosen by those who run the app, and are about the same level of representation as the Trending Page on YouTube. The app contains multitudes of different factions, all vying for the others' elimination. Factions include the Offensives, iPolitics, Furrries, Car People, Emos, Weebs, Otakus, and SJW's (although it may be disputed whether or not they are part of iPolitics). There are a multitude of themed accounts as well, ranging from the Deep Web all the way to Game of Thrones. While on the surface iFunny may seem a pathetic excuse for an app, the underworld is often entertaining to watch. However, beware, for the one thing the features do represent for the app is the art of the meme steal. You may find stolen memes across the internet, but the largest collection of them is on iFunny. Watermarks will not save you. At its very core, iFunny's central meme economy is entirely based off of stolen memes, and if you want to find posts from all over the internet, this is the place for you.Person1: Hey, I heard you downloaded iFunny. Person2: Yeah, but I'm about to delete it. The features aren't that funny and collective is a mine field... Person1: Yeah, don't waste your time with features, here are a couple accounts to subscribe to, and branch out from there. Person3, in the background: Goddamnit iFunny, I stole that meme first! I should be the one who gets featured, not the guy who already had 300!by Poseidon_ January 27, 2018Get the iFunny mug.Get the iFunny mug.The app where you can post comedy. Also, the same app that only features 5 people and takes 15 hours to decide to feature the same 5 people. Otherwise, the same post will get featured 5 times."Hey did you see the new set of features on iFunny?" "Yeah it was that repost from the guy that has over 200 features"by EngageTheFunnies January 15, 2016Get the iFunny mug.iFunny is a comedy app. Every day it features "funny" photos. They used to be good, but now they're shit. Still, iFunny has some good shit. Browse collective and make a good collection of subscriptions. Beware: In collective you'll find really disgraceful content, my favorite being a boy that wears diapers. I warned you.iFunny's featuring team must be plastered when they select the features.by Cuckslapper360 June 9, 2016Get the iFunny mug.iFunny is a so called "comedy" app that you can download on the app store or the google play store. Specifically, it is the worst comedy site on the planet. 70% of content is stolen Reddit, 10% from Tumblr, 10% also stolen from 4chan. And it's even worse when they make their own original content. 90% of the users are autistic sheep that will literally suck a popular users' Dick and will "cry" if they leave the app. They also have the shittiest sense of humor, and will report ANYTHING that is even MINORLY OFFENSIVE. The features are not worth looking at because they are literally THE SAME FUCKING JOKES OVER AND OVER AGAIN EVERY TIME. But wait, let's not forget of the horrible and cancerous jokes and trends that originate from this autistic cesspool of an app. iFunny users worship Kate Upton (even though she's not that attractive compared to other models), Will Ferrell and Will Smith (even though they most likely never seen a movie with them), Ariana Grande (she's not that pretty, get the fuck over it), Eminem (rap sucks), and emo faggots whole listen to tasteless bands pollute this app with their shitty bands like Pierce the Veil and Suicide Silence. And the worst of all, the shitty fandoms. Fandoms are the cancer of iFaggot, and fandoms like bronzies, furrries, and emofags ruin this app as a whole. iFunny is pretty much the bastard child of 9gag and FunnyjunkiFaggot user: *HUR KATE UPTON IS SO HOT I LUV IFUNNY"Average Joe: "I just got a pet tarantula, and Kate Upton isn't that hot"iFaggot user: *WTF KATE UPTON IS HAWT, UR JUST JELUS OF HER!!!!!!!!!!1!1!1?
